INTERNSHIP/TRAINING

nasscom Foundation with Capgemini	08/2024-Present
AI in Data Science	on premise

PROJECTS

- Contact Management System**
Technologies Used: Python, HTML, CSS, Java
Designed and developed a comprehensive web-based contact management system that allows users to efficiently manage contacts, including adding, updating, deleting, and searching for details like name, phonenumber, and email. Implemented backend functionality using Python for data processing and storage. The front-end interface was created with HTML and CSS to ensure an intuitive user experience. Java was integrated to enhance search and sorting capabilities, making the system more dynamic and responsive.
- Stone Paper Scissors Game**
Technologies Used: Python, HTML, CSS, JavaScript
Created an interactive web-based Stone Paper Scissors game with a dynamic user interface using HTML and CSS. Implemented game logic and user interactions using JavaScript, with Python handling backend functionality. The game features real-time score tracking and responsive design for a smooth userexperience.

TECHNICAL SKILLS

Languages and Tools: C, C++, Python, Vs code, Google Collab.
Technologies/Frameworks: NumPy, Pandas, Matplotlib.

CERTIFICATION

Certification in CCC (Course on Computer Concepts)
